2.0 ORDER OF PRECEDENCE

Any inconsistencies shall be resolved in accordance with the following descending order of precedence:

- (1) Negotiated Terms and Conditions
- (2) Terms and Conditions
- (3) Articles Incorporated by Reference
- (4) Statement of Work or other description of Services or Supplies

3.0 CHANGES

Company reserves the right to make changes within the general scope of Subcontract by issuance of a unilateral change order or by bilateral modification to Subcontract. Such changes may include, without limitation, changes in (1) description of Supplies; (2) quantities of Supplies ordered; (3) method of shipment or packaging, and (4) time or place of delivery, inspection, and/or acceptance. Subcontractor shall promptly comply with any such change made by Company. If any change affects the cost of or the time required for performance, an equitable adjustment to the price and/or delivery requirements and other affected provisions of Subcontract shall be made by Parties in a bilateral modification to Subcontract. For any change, whether directed or constructive, Subcontractor must assert any request for equitable adjustment under this Article in writing, together with such supporting information as Company may require, electronically and within thirty days from the date of Subcontractor's first knowledge of the change, or Subcontractor's right to assert such request for equitable adjustment shall be waived.

4.0 ASSIGNMENT FOR THE BENEFIT OF GOVERNMENT

- A. Assignment by Company. Subcontract may be unilaterally assigned by Company to Government or Government's designee, with subsequent written electronic notice of such assignment to Subcontractor. Following such transfer and assignment, Company shall have no further responsibilities hereunder.
- B. Assignment by Subcontractor. Unless permitted in paragraph C of this Article, Subcontractor shall not assign Subcontract, including any rights or obligations thereunder, wholly or in part, voluntarily, by operational of law, or otherwise without the prior written electronic consent of Company. Any assignment of Subcontract in violation of the foregoing shall, at the unilateral option of Company, be void. Subcontractor shall submit the documentation prescribed in in FAR Subpart 42.12 when requesting Company's acceptance of Subcontractor's successor in interest or to recognize Subcontractor's change of name.
- C. Assignment of Rights to be Paid. Subcontractor may assign rights to be paid amounts due or to become due to a bank, trust company, or other financing institution, including a Federal lending agency, if Procurement Representative is promptly furnished written notice and a signed copy of such assignment, provided any assignment of monies shall be subject to (1) proper setoffs in favor of Company and (2) any deductions provided for in Subcontract.
- D. Funding. Unless at the unilateral discretion of Company, Company shall make all payments under Subcontract from Government funds advanced and agreed to be advanced by Government, and not from its own funds. In almost all circumstances, funds recovered by Company from Subcontractor are Government funds.

Right to Recovery. If Company seeks recovery from Subcontractor, Subcontractor agrees it shall not plead, assert or raise in any manner a defense in which Company has no right to recover (1) because Company, itself, rather than Government, has suffered no damages on account of the cost-reimbursable nature of Company's Prime Contract with Government, or (2) because Government has accepted the project or task performed under Subcontract.

5.0 AUTHORIZED REPRESENTATIVES AND NOTICE

Unless otherwise specified, all notices and communications in accordance with or related to Subcontract shall be between authorized representatives designated in writing by Parties. Notices shall be in writing and may be served either personally on the authorized representative of the receiving Party, by email, courier or express delivery, or certified mail to the facsimile number or address shown on the face of Subcontract or such address as directed by notice.

6.0 PUBLICITY

Subcontractor shall not publicly disclose information concerning any respect of the Supplies or Services relating to Subcontract without the prior written electronic approval of Procurement Representative unless specifically required by law.

- A. The interest of Company or Government in Subcontract may not be used in advertising or publicity without advance written approval of Procurement Representative.
- B. Requirements of this Article, including B, shall be flowed down to Lower-Tier Subcontract(s).

7.0 APPROVALS

Approval by Company of designs, work drawings, specifications, reports, or any other data submitted by Subcontractor hereunder shall not affect or relieve Subcontractor from any responsibility to furnish said Supplies in full conformance with requirements of Subcontract.

8.0 DISPUTES

- A. Subcontractor and Company agree to make good-faith efforts to settle any dispute or Claim arising under Subcontract through discussion and negotiation. If such efforts fail to result in a mutually agreeable resolution, Parties shall consider the use of Alternative Dispute Resolution (ADR). Whether mediation or binding arbitration is voluntarily agreed to, or court ordered, the site of the proceedings shall be Aiken, South Carolina; Parties shall share the cost of obtaining mediator or arbiter, and each Party shall bear its discretionary costs.
- B. "Claim," as used in this Article, means a written demand or written assertion by one Party seeking, as a matter of right, payment of money in a sum certain, adjustment or interpretation of Subcontract terms, or other relief arising from or relating to Subcontract, or its breach. However, a written demand or written assertion by Subcontractor seeking the payment of money is not a Claim until certified if certification is required by paragraph (d) below. A request for payment (e.g., voucher, invoice, or other routine request for payment, a termination settlement proposal, or a request for adjustment or equitable adjustment) not in dispute when submitted is not a Claim. An initially undisputed request for payment may be converted to a Claim by Subcontractor by complying with the submission and applicable certification requirements in paragraphs (c) and (d) below.
- C. A Claim by Subcontractor shall be made in writing, citing this Article, and submitted to Procurement Representative with a request for Final Decision.

Certification

I certify under penalty of law: this Claim is made in good faith; the supporting data is accurate and complete to the best of my knowledge and belief; the amount requested accurately reflects Subcontract adjustment for which Subcontractor believes Company is liable; and I am duly authorized to certify Claim on behalf of [[Subcontractor or Lower-Tier Subcontractor, as appropriate]].

I further acknowledge Company is a prime contractor to the Government, and this Claim, if accepted by Company, will be paid for with Government funds and therefore be paid by the Government through a letter of credit arrangement with Company, and a false or fraudulent claim may subject me and/or Subcontractor to penalties, including, but not limited to, those under the False Claims Act, 31 U.S.C. 3729-3733.

D. Subcontractor and any Lower-Tier Subcontractor(s) whose portion of Claim exceeds \$50,000 shall certify each portion of Claim; provided however, if Subcontractor cannot certify Lower-Tier Subcontractor's portion of Subcontractor's Claim, Subcontractor shall explain in writing why it cannot certify Lower-Tier Subcontractor's portion.

- (1) Company shall not be liable for, and shall not pay, any Claim originated by Subcontractor if the Claim exceeds \$50,000 unless Subcontractor's Claim is accompanied by the below certification from Subcontractor.
- (2) Company shall not be liable for, and shall not pay, any Claim of a Lower-Tier Subcontractor to Subcontractor if Lower-Tier Subcontractor Claim, without mark-ups by a Higher-Tier Subcontractor or Subcontractor, exceeds \$50,000 unless Lower-Tier Subcontractor Claim is accompanied by the below certification from the Lower-Tier Subcontractor originating Claim.
- (3) The aggregate amount of both increased and decreased costs shall be used in determining when the dollar threshold requiring certification is met.

E.

A Claim from Subcontractor shall be deemed denied if Procurement Representative does not issue a written Final Decision (i) by date Final Decision would be issued as notified by Procurement Representative notified Subcontractor the decision would be issued, or

- (1) (ii) within sixty (60) calendar days after receipt of Claim if Procurement Representative did not notify Subcontractor of the date Final Decision would be issued. Procurement Representative may, but is not required to, issue a written Final Decision after Claim is deemed denied.
- (2) Procurement Representative's Final Decision on any Subcontractor Claim shall be final and conclusive between Parties with no right of judicial review, provided however, the Final Decision shall not be final and binding against either Party, and shall be given no evidentiary weight by the trier of fact, if Subcontractor files suit within ninety (90) calendar days of the written Final Decision in the appropriate court as provided for in paragraph (F) below.
- (3) Subcontractor shall have no right to file suit prior to the date of the written Final Decision or sixty (60) calendar days from Procurement Representative's receipt of Claim, whichever occurs earlier.

F.

- (1) State Agency. Where Subcontractor is a State agency, such as an educational institution, the applicable constitutional provisions or statutes governing sovereign immunity shall dictate the appropriate forum and law governing substantive issues.
- (2) Seller not a State Agency.

- a. Any litigation shall be brought and prosecuted exclusively in Federal District Court, with venue in the United States Court for the District of South Carolina, Aiken Division.
- b. In the event requirements for jurisdiction in Federal District Court are not present, such litigation shall be brought in either Aiken, Barnwell, or Allendale County, South Carolina.

(3) Parties agree to trial by Judge alone and hereby waive any right to demand a trial by jury.

(4) If a court awards interest of any kind, interest shall be simple interest at the applicable rate established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (Public Law 95-563). If a court awards prejudgment interest, interest shall accrue from no earlier than the date Claim is received by Procurement Representative.

- G. Subject to (F)(1), the resolution of all issues arising from or relating to Subcontract shall be governed to the maximum extent practicable by the common law of federal contracts; provided, however, (i) the "Christian Doctrine" shall not apply, meaning Government procurement clauses (e.g., FAR and the DEAR) or portions thereof not appearing in Subcontract shall not be read into Subcontract, and (ii) where the language of any Article, provision or term herein differs from the language of a Government procurement clause, provision or term, the differing language of Subcontract shall control. Where the common law of federal contracts does not apply, then subject to (F)(1), resolution shall be governed by the laws of the State of South Carolina, without regard to its Conflicts of Laws rules.
- H. There shall be no interruption in the performance of Work, and Subcontractor shall proceed diligently with the performance of Subcontract pending final resolution of any dispute arising under or related to Subcontract between Parties or between Subcontractor and its Lower-Tier Subcontractor(s).
- I. Contractual remedies in this Article shall not be deemed to waive, postpone the running of, extend, or otherwise affect any statute of limitation applicable to any request for payment or Claim.

9.0 TERMINATION AT COMPANY'S OPTION

- A. Company shall have the right at any time, with or without cause, to terminate further performance of Work, by written notice to Subcontractor, specifying date of termination. On the date of such termination stated in said notice, Subcontractor shall discontinue performance of Work, and shall preserve work in progress and completed work, pending Company's instructions, and shall turn over such work in accordance with Company's instructions.
- B. If Subcontractor has fully and completely performed all obligations under Subcontract up to date of termination, Subcontractor shall recover from Company as complete and full settlement for such termination: (a) for work to be performed for a lump sum contract price under Subcontract, the actual costs of all such work satisfactorily executed to the date of termination, plus overhead and profit on such costs based on the percentage agreed to in the original schedule of values. (b) actual cost incurred by Subcontractor to return Subcontractor's field tools and equipment, if any, to its or its Lower-Tier Subcontractors' premises and to turn over work in progress and completed Work in accordance with Company's instructions; plus, (c) actual substantiated cost necessarily incurred in effecting termination; less, (d) all amounts previously paid to Subcontractor for Work. This is more fully delineated in FAR 31.205-42, set forth in its entirety in Part 4.

All claims under any of the foregoing provisions of this Article shall be supported by Subcontractor's accounting records or other such documentation satisfactory in form and content to Company and verified by Company. In no event shall Subcontractor be entitled to any consequential damages, including but not limited to prospective profits, loss of future business, loss of production and impairment of credit, and any other such perspective damages because of the termination. All payments made pursuant to Termination at Company's option will be subject to

audit. If Company elects to audit Subcontractor's claims for termination for convenience costs, no payments will be made to Subcontractor, including any outstanding pre-termination costs, until the audit has been completed. The warranty obligations in Subcontract will survive the termination.

10.0 TERMINATION FOR DEFAULT

Company may terminate Subcontract, in whole or in part, if Subcontractor: (1) fails to supply enough properly skilled workers or proper Supplies or equipment so as to endanger performance of Subcontract; (2) fails to make payment to Low-Tier Subcontractors for Supplies or labor in accordance with the respective Subcontracts between Subcontractor and the Low-Tier Subcontractors; (3) disregards applicable laws, ordinances, rules, regulations, directives, or orders, or instructions of Company; (4) fails to adhere to the time specified in Subcontract for performance of Services or delivery of supplies or Services.; or (5) otherwise fails to comply with any material terms of Subcontract. Company's right to terminate Subcontract may be exercised if Subcontractor does not cure such failure within ten (10) days after receipt of notice from Company specifying the failure.

Company may take possession and use any Supplies, tools, equipment, and the construction facilities and premises and finish Work by whatever method Company deems expedient at Subcontractor's expense which includes any increased cost incurred exceeding Subcontract price.

Subcontractor will not be deemed to be in default for failure to perform caused by failure of a Low-Tier Subcontractor if failure was beyond the control of both Subcontractor and Low-Tier Subcontractor and without fault or negligence of either.

The rights and remedies of Company in Article are in addition to any other rights and remedies provided by law or under Subcontract.

11.0 LIMITATION OF FUNDS

- A. Parties estimate the performance of Subcontract will not cost Company more than estimated cost specified. Subcontractor agrees to use best efforts to perform Work and all obligations under Subcontract within estimated cost.
- B. Funding Schedule specifies the amount presently available for payment by Company and allotted by Subcontract, the Supplies covered, and period of performance it is estimated the allotted amount will cover. Company will allot additional funds incrementally to Subcontract up to full estimated cost specified in Funding Schedule, exclusive of any fee. Subcontractor agrees to perform, or has performed, Work on Subcontract up to the point at which the total amount paid and payable under Subcontract approximates but does not exceed the total amount in Subcontract.
- C. Subcontractor shall notify Company sixty (60) days before the end of the period specified in Funding Schedule in writing, electronically, whenever it has reason to believe the costs it expects to incur under Subcontract, when added to all costs previously incurred, will exceed 75 percent of the total amount allotted to Subcontract. The notice shall state estimated amount of additional funds required to continue performance for period specified in the Funding Schedule.
- D. If, after notification, additional funds are not allotted by end of the period specified in Funding Schedule or another agreed-upon date, upon Subcontractor's written electronic request, Company will terminate Subcontract on date in accordance with provisions of the "Termination" Article of Subcontract. If Subcontractor estimates funds available will allow it to continue to discharge its obligations beyond the date, it may specify a later date in its request, and Company may terminate Subcontract on the later date.
- E. Except as required by other provisions of Subcontract, specifically citing, and stated to be an exception to Article.

(1) Company is not obligated to reimburse Subcontractor for costs incurred in excess of total amount allotted

- by Company to Subcontract; and
- (2) Subcontractor is not obligated to continue performance under Subcontract (including actions under Termination Article of Contract) or otherwise incur costs in excess of amount then allotted to Subcontract by Company until Company notifies Subcontractor in writing, electronically, amount allotted by Subcontractor has been increased and specifies an increased amount, which shall then constitute total amount allotted by Company to Subcontract.
- F. Estimated cost shall be increased to the extent the amount allotted by Company, exceeds estimated cost specified in Funding Schedule.
- G. No notice, communication, or representation in any form other than specified in subparagraph F(2) above, or from any person other than cognizant Company Procurement Agent, shall affect amount allotted by Company to Subcontract. In absence of specified notice, Company is not obligated to reimburse Subcontractor for any costs in excess of total amount allotted by Company to Subcontract, whether incurred during the course of Subcontract or as a result of termination.
- H. When and to the extent amount allotted Company to Subcontract is increased, any costs Subcontractor incurs before increase in excess of the amount previously allotted by Company shall be allowable to the same extent as if incurred afterward, unless Company issues a termination or other notice and directs increase is solely to cover termination or other specified expenses.
- I. Changes to Subcontract shall not be considered an authorization to exceed amount allotted by Company specified in Funding Schedule, unless they contain a statement increasing the amount allotted.
- J. Nothing in Article shall affect the right of Company to terminate Subcontract. If Subcontract is terminated, Company and Subcontractor shall negotiate an equitable distribution of property produced or purchased under Subcontract, based upon share of costs incurred by each.
- K. If Company does not allot sufficient funds to allow completion of Work, Subcontractor is entitled to a percentage of fee specified in Funding Schedule equaling percentage of completion of Work contemplated by Subcontract.

12.0 ALLOWABLE COSTS AND PAYMENT

A. Invoicing

Company shall make payments to Subcontractor when requested as Work progresses, but not more often than once every two (2) weeks, except for small business concerns, in amounts determined to be allowable by Company in accordance with FAR 31.2 and, as supplemented, DEAR 931.2 in effect on the date of Subcontract and terms of Subcontract. Subcontractor may submit to Company, in such form and reasonable detail as Company may require, invoices supported by statements of claimed allowable costs for performing Subcontract. Reasonable details of costs may include, but are not limited to:

- Labor Categories
- Hours Expended per Category
- Direct Labor Rate(s) per Category
- General & Administrative or Supplies Handling (if applicable)
- Travel Costs (number of trips, number of days in a travel status, location of travel)
- Material Costs and Other Direct Costs (with identification of large purchases).

B. Reimbursing Costs

- (1) For reimbursing allowable costs, except as provided in subparagraph (2) below, with respect to pension, deferred profit sharing, and employee stock ownership plan contributions), the term “costs” includes only

- (a) Those recorded costs, at the time of request for reimbursement, Subcontractor has paid by cash, check, or other form of actual payment for Supplies or Services purchased directly for Subcontract,
 - (b) Costs incurred, but not necessarily paid for, when Subcontractor is not delinquent in paying costs of Subcontract performance in ordinary course of business, costs incurred:
 - (i) Supplies issued from Subcontractor's inventory and placed in production process for use on Subcontract,
 - (ii) Direct labor,
 - (iii) Direct travel,
 - (iv) Other direct in-house costs, and
 - (v) Properly allocable and allowable indirect costs, as shown in the records maintained by Subcontractor for purposes of obtaining reimbursement under Government contracts, and
 - (c) The amount of payments which have been paid to Subcontractor's Lower-Tier Subcontracts under similar cost standards.
- (2) Subcontractor's contributions to any pension, profit-sharing, or employee stock ownership plan funds, paid quarterly or more often, may be included in indirect costs for payment purposes, provided Subcontractor pays contribution to fund within thirty (30) days after close of the period covered. Payments made thirty (30) days or more after close of a period shall not be included until Subcontractor actually makes payment. Accrued costs for such contributions paid less often than quarterly shall be excluded from indirect costs for payment purposes until Subcontractor actually makes payment.
 - (3) Notwithstanding audit and adjustment of invoices or vouchers under paragraph G of Article, allowable indirect costs under Subcontract shall be obtained by applying indirect cost rates established in accordance with paragraph D.
 - (4) Any statements, in specifications or other documents incorporated in Subcontract by reference, designating performance of Services or furnishing of Supplies at Subcontractor's expense or at no cost to Company shall be disregarded for purposes of cost reimbursement under Article.

C. Final Indirect Cost Rates

- (1) Final annual indirect cost rates and appropriate bases shall be established in accordance with FAR 42.7 and DEAR 942.7, in effect for period covered by indirect cost rate proposal.
- (2) Subcontractor shall, within ninety (90) days, after its expiration of each of fiscal years, or by later dates approved by Company, submit to cognizant Contracting Officer responsible for negotiating its final indirect costs rates and, if required by Government procedures, to cognizant audit activity, proposed final indirect cost rates for each period and supporting cost data specifying Subcontract and/or Lower-Tier Subcontract to which rates apply. Proposed rates shall be based on Subcontractor's actual cost experience for the period stated above. The appropriate Government representative and Subcontractor shall establish the final indirect cost rates as promptly as practical after receipt of Subcontractor's proposal.
- (3) Subcontractor and appropriate Government representative shall execute written electronic understanding setting forth final indirect cost rates. Understanding shall specify:
 - (i) Agreed-upon final annual indirect cost rates,
 - (ii) Bases of rates applicability,
 - (iii) Periods of rates applicability,
 - (iv) Specific indirect cost Supplies treated as direct costs in settlement; and
 - (v) Affected Subcontract and/or Lower-Tier Subcontract, identifying any with advance agreements or special terms and applicable rates. Understanding shall not change any monetary ceiling, contract obligation, or specific cost allowance or disallowance provided for in Subcontract. Understanding is incorporated into Subcontract upon execution.

(4) Failure by Parties to agree on final annual indirect cost rates shall be a dispute within the meaning of the "Disputes" Article of Subcontract.

D. Billing Rates

Until final annual indirect cost rates are established for any period, Company shall reimburse Subcontractor at billing rates approved by Government or by authorized representative (the cognizant auditor), subject to adjustment when final rates are established. These billing rates:

- (1) Shall be anticipated final rates; and
- (2) May be prospectively or retroactively revised by mutual agreement, at either Party's request, to prevent substantial overpayment or underpayment.

E. Quick-Closeout Procedures

When Parties agree, quick-closeout procedures of FAR 42.7 may be used.

F. Audit

At any time or times before final payment, Company may audit, or have audited, Subcontractor's invoices or vouchers and statements of cost. Any payment may be:

- (1) Reduced by amounts found by Company not to constitute allowable costs or
- (2) Adjusted for prior overpayments or underpayments.

G. Final Payment

- (1) Subcontractor shall submit a completion invoice, designated as such, promptly upon completion of Work, but no later than one (1) year (or longer, as Company may approve in writing electronically) from completion date. Upon approval of completion invoice, and upon Subcontractor's compliance with terms of Subcontract, Company shall promptly pay any balance of allowable costs and part of fee (if any) not previously paid.
- (2) Subcontractor shall pay to Company any refunds, rebates, credits, or other amounts (including interest, if any) accruing to or received by Subcontractor or any assignee under Subcontract, to the extent those amounts are properly allocable to costs for which Subcontractor has been reimbursed by Company. Reasonable expenses incurred by Subcontractor for securing refunds, rebates, credits, or other amounts shall be allowable costs if approved by Company. Before final payment under Subcontract, Subcontractor, and each assignee with assignment in effect at the time of final payment shall execute and deliver:
 - (a) An assignment to Company, in form and substance satisfactory to Company, of refunds, rebates, credits, or other amounts (including interest, if any) properly allocable to costs for which Subcontractor has been reimbursed by Company under Subcontract; and
 - (b) A release discharging Company, Government, and their officers, agents, employees, and assigns from all liabilities, obligations, and claims arising out of or under Subcontract, except:
 - (i) Specified claims stated in exact amounts or in estimated amounts when exact amounts are not known,
 - (ii) Claims (including reasonable incidental expenses) based upon liabilities of Subcontractor to third Parties arising out of performance of Subcontract; provided claims are not known to Subcontractor on date of execution of release, and Subcontractor gives notice of claims in writing, electronically, to Company within six (6) years following release date or notice of final payment date, whichever is earlier; and

Claims for reimbursement of costs, including reasonable incidental expenses, incurred by Subcontractor under patent articles of Subcontract, excluding, however, any expenses arising from Subcontractor's indemnification of Company or the Government against patent liability.

13.0 TAXES

To the extent possible, Subcontractor will use its best efforts to obtain Supplies and Services furnished under Subcontract, as tax exempt by sharing the exemption certificate is an [[Reference to SRNS certificate from SC]]. Subcontractor shall determine at the time of providing quotations/proposals for Subcontract and all subsequent modifications to Subcontract if it is able to procure Services and Supplies. If the exemption certificate is not accepted, then Subcontract price shall include all applicable Federal, State, and local taxes and duties.

14.0 COMPLIANCE WITH LAWS

- A. Subcontractor shall comply with all applicable federal, state, and local laws and ordinances and all pertinent lawful orders, rules, and regulations unless relief has been granted in writing by the appropriate regulatory agency. Except as otherwise directed by Company, Subcontractor shall procure, without additional expense to Company, all necessary permits and/or licenses.
- B. Requirements of this Article, including paragraph (B), shall be flowed down to all Lower-Tier Subcontractors.

15.0 INDEPENDENT CONTRACTOR

Subcontractor shall act in performance of Subcontract as an independent contractor and not as an agent for Company or Government, maintaining complete control over its employees and all Lower-Tier Subcontractors. Nothing contained in Subcontract, or any Lower-Tier Subcontract(s) shall create any contractual relationship between any such Lower-Tier Subcontractor(s) and Government or Company. Subcontractor is solely responsible for actions of itself and its Lower-Tier Subcontractors, agents, and employees.

Subcontractor shall not utilize or propose individuals for Work previously terminated for cause from Company.

16.0 SUBCONTRACTING
