2.0 ORDER OF PRECEDENCE

Any inconsistencies shall be resolved in accordance with the following descending order of precedence:

- (1) Negotiated Terms and Conditions

- (2) Terms and Conditions
- (3) Clauses Incorporated by Reference
- (4) Statement of Work or other description of Services or Supplies

3.0 ASSIGNMENT FOR THE BENEFIT OF GOVERNMENT

- A. Assignment by Company. Subcontract may be unilaterally assigned by Company to Government or Government's designee, with subsequent written electronic notice of such assignment to Subcontractor. Following such transfer and assignment, Company shall have no further responsibilities hereunder.
- B. Assignment by Subcontractor. Unless permitted in paragraph C of this Article, Subcontractor shall not assign Subcontract, including any rights or obligations thereunder, wholly or in part, voluntarily, by operation of law, or otherwise without the prior written electronic consent of Company. Any assignment of Subcontract in violation of the foregoing shall, at the unilateral option of Company, be void. Subcontractor shall submit the documentation prescribed in FAR Subpart 42.12 when requesting Company acceptance of Subcontractor's successor in interest or to recognize Subcontractor's change of name.
- C. Assignment of Rights to be Paid. Subcontractor may assign rights to be paid amounts due or to become due to a bank, trust Company, or other financing institution, including a Federal lending agency, if Procurement Representative is promptly furnished written notice and a signed copy of such assignment, provided any assignment of monies shall be subject to (1) proper setoffs in favor of Company and (2) any deductions provided for in Subcontract.
- D. Funding. Unless at the unilateral discretion of Company, Company shall make all payments under Subcontract from Government funds advanced and agreed to be advanced by Government, and not from its own funds. In almost all circumstances, funds recovered by Company from Subcontractor are Government funds.
- E. Right to Recovery. If Company seeks recovery from Subcontractor, Subcontractor agrees it shall not plead, assert or raise in any manner a defense Company has no right to recover (1) because Company, itself, rather than Government, has suffered no damages on account of the cost-reimbursable nature of Company's Prime Contract with Government, or (2) because Government has accepted the project or task performed under Subcontract.

4.0 ACCEPTANCE OF TERMS AND CONDITIONS

- A. Subcontractor, by signing Subcontract or delivering the items identified herein, agrees to comply with all the terms and conditions and all specifications and other documents Subcontract incorporated by reference or attachment. Subcontractor shall be solely responsible for requesting instructions and interpretations and shall be solely liable for costs and expenses arising from Subcontractor's failure to do so. All rights and obligations shall survive final performance of Subcontract.
- B. Subcontract sets forth the entire agreement between Company and Subcontractor concerning the subject matter of Subcontract. To avoid any doubt, Subcontract supersedes all prior and contemporaneous negotiations, understandings, and agreements, whether oral or written, pertaining to the subject matter hereof, and it supersedes and takes precedence over any conflicting or supplemental terms and conditions included in any Subcontractor proposal, quote, acknowledgement, or invoice, all of which are hereby objected to and expressly rejected.
- C. If subcontract requires on-site Work, the Subcontractor will be required to meet the "On-Site Requirements" listed on our website: SRS - SRNS General Provisions and Related Documents

5.0 AUTHORIZED REPRESENTATIVES AND NOTICE

Unless otherwise specified, all notices and communications in accordance with or related to Subcontract shall be between authorized representatives designated in writing by Parties. Notices shall be in writing and may be served either personally on the authorized representative of the receiving Party, by email, facsimile, courier or express delivery, or certified mail to the facsimile number or address shown on the face of Subcontract or such address as directed by notice.

6.0 INDEPENDENT CONTRACTORS

Subcontractor shall act in performance of Subcontract as an independent contractor and not as an agent for Company or the Government, maintaining complete control over its employees and all Lower-Tier Subcontractors. Nothing contained in Subcontract, or any Lower-Tier Subcontract shall create any contractual relationship between any such Lower-Tier Subcontractor and the Government or Company. Subcontractor is solely responsible for the actions of itself and its Lower-Tier Subcontractors, Agents, and employees.

Subcontractor shall not utilize or propose individuals for Work previously terminated for cause from Company.

7.0 LOWER-TIER SUBCONTRACTORS

The requirements of this Article shall be flowed down to all Lower-Tier Subcontractors. When the use of a Lower-Tier Subcontractor is determined to be necessary, the Higher-Tiered Subcontractor shall flow down those terms and conditions applicable for the activities within its defined Scope of Work, in accordance with referenced Codes/Standards/Material Specifications and any other requirements included within Subcontract. The Higher-Tiered Subcontractor shall flow down all commercial Terms and Conditions, including Articles incorporated by reference, to all Lower-Tiered Subcontractors, which includes verification the Lower-Tiered Subcontractor has been appropriately qualified to perform the activities required to satisfy this procurement. The Higher-Tiered Subcontractor shall maintain objective evidence of the successful flow down of the referenced requirements and provide such evidence to Company upon request. This flow down is also required at all levels if the Lower-Tiered Subcontractor to the Higher-Tiered Subcontractor deems it necessary to Subcontract further its parts of this Contract.

8.0 CHANGES

Company reserves the right to make changes within the general scope of Subcontract by issuance of a unilateral change order, or by a bilateral modification to Subcontract. Such changes may include, without limitation, changes in (1) the description of the items; (2) the quantities of items ordered; (3) the method of shipment or packaging, and (4) the time or place of delivery, inspection, and/or acceptance. Subcontractor shall promptly comply with any such change made by Company. If any change affects the cost of or the time required for performance, an equitable adjustment to the price and/or delivery requirements and other affected Articles of Subcontract shall be made by Parties in a bilateral modification to Subcontract. For any change, whether directed or constructive, Subcontractor must assert any request for equitable adjustment under this Article in writing, together with such supporting information as Company may require, electronically and within thirty days from the date of Subcontractor's first knowledge of the change, or Subcontractor's right to assert such request for equitable adjustment shall be waived.

9.0 SELECTION OF PERSONNEL

- A. When personnel categories or classifications are listed, Subcontractor shall provide resumes of individuals proposed to be furnished and obtain the written electronic approval of Procurement Representative prior to furnishing or utilizing such personnel under Subcontract. In addition, at the option of Company, personal interviews may be required prior to utilizing any individual under Subcontract. Company shall not be obligated to reimburse Subcontractor for the Services of any individual utilized without complying with this requirement.
- B. When individuals are listed by name, no substitution will be acceptable without a fully executed modification to Subcontract.
- C. Consistent with section 3161 of the National Defense Authorization Act (PL 102-484), if the Consultant needs to hire additional employees beyond those already part of its existing Work force as of the date of Subcontract in order to satisfy the performance requirements set forth by the Scope of Work in Subcontract, the Consultant must first consider the employment of qualified displaced Government contractor employees who meet the 3161 Job Attachment Test prior to using other avenues to fill the employment need. At the time of award of Subcontract, Procurement Representative shall make available to the Consultant a list of displaced employees with sufficient information to allow for contact. This requirement shall be included in the resultant Subcontract and be in effect from the date of award of Subcontract.

10.0 PERSONAL SERVICES

- A. It is the intent of Parties of Subcontract the Work and Services provided for herein shall be performed personally by Subcontractor personnel who are assigned by Subcontractor except those incidental Services such as secretarial and clerical assistance may be performed by others when requested by Subcontractor. Except for such incidental assistance, any Services provided for herein may not be performed by persons other than a Subcontractor unless written electronic approval for such performance is given by Company.
- B. It is understood Company shall not be liable for any claims for Work performed under or in connection with Subcontract by persons other than Subcontractor.

11.0 TECHNICAL DIRECTION

- A. The Performance of Work required under Subcontract shall be subject to the technical direction and surveillance of the STR/End User of Company.
- B. As used herein "technical direction" is direction to Subcontractor which provides the details, requires pursuit of certain lines of inquiry, or otherwise serves to accomplish Subcontract Statement of Work. The technical direction to be valid:
 - (1) Must be issued in writing consistent with the general Scope of the Work set forth in Subcontract.
 - (2) May not constitute a new assignment of Work or change to the expressed terms, conditions or specifications incorporated into Subcontract or Subcontractor's rights.
 - (3) Shall not constitute a basis for any increase in Subcontract price or extension to Subcontract delivery schedule.
- C. Nothing contained in this Article authorizes Subcontractor to incur costs more than the funded value of Subcontract or other limitation on funds set forth in Subcontract.

12.0 THIRD PARTIES

Nothing in Subcontract, or its amendments, shall be construed to grant, vest or allow any right to be given to any employee or other third party, excluding the Government, or to the legal representative, heirs, assigns, or successors of any of them, as a third-party beneficiary. This Article is not intended to limit or impair the rights which any person may otherwise have under applicable Federal statutes, or which are granted or reserved to the Government in Subcontract.

13.0 PUBLICITY

- A. Subcontractor shall not publicly disclose information concerning any aspect of Supplies or Services relating to Subcontract without the prior written electronic approval of Procurement Representative unless specifically required by law.
- B. The interest of Company or Government in Subcontract may not be used in advertising or publicity without advance written approval of Procurement Representative.
- C. Requirements of this Article, including paragraph (c), shall be flowed down to all Lower-Tier Subcontracts.

14.0 DISPUTES

- A. Subcontractor and Company agree to make good-faith efforts to settle any dispute or Claim arising under Subcontract through discussion and negotiation. If such efforts fail to result in a mutually agreeable resolution, Parties shall consider the use of Alternative Dispute Resolution (ADR). Whether mediation or binding arbitration is voluntarily agreed to or court ordered, the site of the proceedings shall be Aiken, South Carolina; Parties shall share the cost of obtaining the mediator or arbiter, and each Party shall bear its discretionary costs.
- B. "Claim," as used in this Article, means a written demand or written assertion by one of the contracting Parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of Subcontract

terms, or other relief arising from or relating to Subcontract, or its breach. However, a written demand or written assertion by Subcontractor seeking the payment of money is not a Claim until certified, if certification is required by paragraph (d) below. A request for payment (e.g., a voucher, invoice, or other routine request for payment, a termination settlement proposal, or a request for an adjustment or equitable adjustment) is not in dispute when submitted is not a Claim. An initially undisputed request for payment may be converted to a Claim by Subcontractor by complying with the submission and applicable certification requirements in paragraphs (c) and (d) below.

- C. A Claim by Subcontractor shall be made in writing, cite this Article, and be submitted to Procurement Representative with a request for a Final Decision.

Certification

I certify under penalty of law: this Claim is made in good faith; the supporting data is accurate and complete to the best of my knowledge and belief; the amount requested accurately reflects the contract adjustment for which Subcontractor believes Company is liable; and I am duly authorized to certify the claim on behalf of [[Subcontractor or Lower-Tier Subcontractor, as appropriate]].

I further acknowledge Company is a prime contractor to the U.S. Department of Energy, and this claim, if accepted by Company, will be paid for with Government funds and therefore be paid by the Government through a letter of credit arrangement with Company, and a false or fraudulent claim may subject me and/or Subcontractor to penalties, including, but not limited to, those under the False Claims Act, 31 U.S.C. 3729-3733.

- D. Subcontractor and any Lower-Tier Subcontractors whose portion of the Claim exceeds \$50,000 shall certify its portion of the Claim; provided however, if Subcontractor cannot certify the Lower-Tier Subcontractor's portion of Subcontractor's Claim, Subcontractor shall explain in writing why it cannot certify the portion.
- (1) Company shall not be liable for, and shall not pay, any Claim originated by Subcontractor if the Claim exceeds \$50,000 unless Subcontractor's Claim is accompanied by the below certification from Subcontractor.
 - (2) Company shall not be liable for, and shall not pay, any Claim of a Lower-Tier Subcontractor to Subcontractor if the Claim, without mark-ups by a Higher-Tier subcontractor or Subcontractor, exceeds \$50,000 unless the Claim is accompanied by the below certification from the Lower-Tier Subcontractor originated the Claim.
 - (3) The aggregate amount of both increased and decreased costs shall be used in determining when the dollar threshold requiring certification is met.
- E.
- (1) A Claim from Subcontractor shall be deemed denied if Procurement Representative does not issue a written Final Decision (i) by the date Procurement Representative notified Subcontractor the decision would be issued, or (ii) within 60 calendar days after receipt of the Claim if Procurement Representative did not notify Subcontractor of a date by which the Final Decision would be issued. Procurement Representative may, but is not required to, issue a written Final Decision after a Claim is deemed denied.
 - (2) Procurement Representative's Final Decision on any Subcontractor Claim shall be final and conclusive between Parties with no right of judicial review, provided however, the Final Decision shall not be final and binding against either Party, and shall be given no evidentiary weight by the trier of fact, if Subcontractor files suit within 90 calendar days of the written Final Decision in the appropriate court as provided for in paragraph (f) below.
 - (3) Subcontractor shall have no right to file suit prior to the date of the written Final Decision or 60 calendar days from Procurement Representative's receipt of the Claim, whichever occurs earlier.
- F.
- (1) State Agency. Where Subcontractor is a State agency, such as an Educational Institution, the applicable constitutional provisions or statutes the govern sovereign immunity shall dictate the appropriate forum and law governing substantive issues.
 - (2) Seller not a State Agency.
 - a. Any litigation shall be brought and prosecuted exclusively in Federal District Court, with venue in the United States Court for the District of South Carolina, Aiken Division.

- b. In the event the requirements for jurisdiction in Federal District Court are not present, such litigation shall be brought in either Aiken, Barnwell, or Allendale County, South Carolina.
 - (3) Parties agree to trial by judge alone and hereby waive any right to demand a trial by jury.
 - (4) If a court awards interest of any kind, interest shall be simple interest at the applicable rate established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (Public Law 95-563). If a court awards prejudgment interest, interest shall accrue from no earlier than the date a Claim is received by Procurement Representative.
- G. Subject to (f)(1), the resolution of all issues arising from or relating to Subcontract shall be governed to the maximum extent practicable by the common law of federal contracts; provided, however, (i) the “Christian Doctrine” shall not apply, meaning the Government procurement clauses (e.g., the FAR and the DEAR) or portions thereof not appearing in Subcontract shall not be read into Subcontract, and (ii) where the language of any Article or term herein differs from the language of a Government procurement clause, provision or term, the differing language of Subcontract shall control. Where the common law of federal contracts does not apply, then subject to (f)(1), resolution shall be governed by the laws of the State of South Carolina, without regard to its Conflicts of Laws rules.
- H. There shall be no interruption in the Performance of Work, and Subcontractor shall proceed diligently with the performance of Subcontract pending final resolution of any dispute arising under or related to Subcontract between Parties or between Subcontractor and its Lower-Tier Subcontractors.
- I. The contractual remedies in this Article shall not be deemed to waive, postpone the running of, extend, or otherwise affect any statute of limitation applicable to any request for payment or Claim.

15.0 TERMINATION FOR DEFAULT

Company may terminate Subcontract, in whole or in part, if Subcontractor: (1) fails to supply enough properly skilled workers or proper materials or equipment so as to endanger performance of Subcontract; (2) fails to make payment to Lower-Tier Subcontractors for materials or labor in accordance with the respective Subcontracts between Subcontractor and the Lower-Tier Subcontractors; (3) disregards applicable laws, ordinances, rules, regulations, directives, or orders, or instructions of Company; (4) fails to adhere to the time specified in Subcontract for performance of Services or delivery of Supplies or Services.; or (5) otherwise fails to comply with any material terms of Subcontract. Company’s right to terminate Subcontract may be exercised if Subcontractor does not cure such failure within ten (10) days after receipt of notice from Company specifying the failure.

Company may take possession and use any materials, tools, equipment, and the construction facilities and premises and finish the Work by whatever method Company deems expedient at Subcontractor’s expense which includes any increased cost incurred exceeds Subcontractor price.

Subcontractor will not be deemed to be in default for failure to perform caused by the failure of a Lower-Tier Subcontractor if the failure was beyond the control of both Subcontractor and Lower-Tier Subcontractor and without the fault or negligence of either.

The rights and remedies of Company in this clause are in addition to any other rights and remedies provided by law or under Subcontract.

16.0 TERMINATION AT COMPANY’S OPTION

Company shall have the right at any time, with or without cause, to terminate further Performance of Work, by written notice to Subcontractor, specifying the date of termination. On the date of such termination stated in said notice, Subcontractor shall discontinue Performance of Work and shall preserve Work in progress and completed Work, pending Company’s instructions, and shall turn over such Work in accordance with Company’s instructions.

If Subcontractor has fully and completely performed all obligations under Subcontract up to the date of termination, Subcontractor shall recover from Company as complete and full settlement for such termination: (a) for Work to be performed for a lump sum Contract Price under Subcontract, the actual costs of all such Work satisfactorily executed to the date of termination, plus overhead and profit on such costs based on the percentage agreed to in the original schedule of values. (b) actual cost incurred by Subcontractor to return Subcontractor's field tools and equipment, if any, to its or its suppliers' premises and to turn over Work in progress and completed Work in accordance with Company's instructions; plus, (c) actual substantiated cost necessarily incurred in effecting the termination; less, (d) all amounts previously paid to Subcontractor for the Work. This is more fully delineated in FAR 31.205-42, which is set forth in its entirety in Part 4.

All claims under any of the foregoing Articles of this Section shall be supported by Subcontractor's accounting records or other such documentation satisfactory in form and content to Company and verified by Company. In no event shall Subcontractor be entitled to any consequential damages, including but not limited to prospective profits, loss of future business, loss of production and impairment of credit, and any other such perspective damages because of the termination. All payments made pursuant to Termination at Company's option will be subject to audit. If Company elects to audit Subcontractor's claims for termination for convenience costs, no payments will be made to Subcontractor, including any outstanding pre-termination costs, until the audit has been completed. The warranty obligations in Subcontract will survive the termination.

17.0 EXCUSABLE DELAYS

- A. Subcontractor shall not be liable to Company if its nonperformance is caused by an occurrence beyond the reasonable control of Subcontractor and without its fault or negligence, such as acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. However, if Subcontractor's failure to perform is caused by the failure of its Lower-Tier Subcontractor to perform or make progress, and if the cause of such failure was beyond the reasonable control of both Subcontractor and the Lower-Tier Subcontractor(s) and without the fault or negligence of either, then Subcontractor shall not be deemed to be in default, unless the Supplies or Services were timely obtainable from other sources. Subcontractor shall notify Procurement Representative in writing as soon as possible after any excusable delay period begins and ends.
- B. Company shall not be liable to Subcontractor if Company's nonperformance is caused by an occurrence beyond the reasonable control of Company and without its fault or negligence, such as acts of God or the public enemy, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. Subcontractor's sole remedy shall be a schedule extension to Subcontract if the facts support the extension requested by Subcontractor. Procurement Representative shall notify Subcontractor in writing as soon as reasonably possible after an excusable delay period begins and ends.

18.0 PAYMENT BY ELECTRONIC FUNDS TRANSFER

Methods of Payment:

- (1) All payments by Company under Subcontract shall be made by Electronic Funds Transfer (EFT) except as provided in Paragraph A.2 of this Article.
- (2) In the event Company is unable to release one or more payments by EFT, Subcontractor agrees to either:
- (3) Accept payment by check or some other mutually agreeable method of payment; or
- (4) Request Company extend payment due dates until such time as Company can make payment by EFT.

19.0 PAYMENT

- A. Unless otherwise provided, terms of payment shall be Net-30 days from the latter of (1) receipt of Subcontractor proper invoice for Services, if required, or (2) delivery and acceptance of products. Any offered discount shall be taken if payment is made within the discount period Subcontractor's invoice indicates. If there are invoice discrepancies, Company will reject the invoice and relay to Subcontractor the deficiencies in their invoice within ten (10) business days of receipt of the invoice. Receipt of a corrected invoice will re-initiate the aging of the invoice for payment purposes.

- B. Payment shall be deemed to have been made as of the date of mailing or the date on which an electronic funds transfer was made.
- C. For items subject to inspection or testing as a condition of acceptance, Company may in its sole discretion pay invoices prior to acceptance subject to repayment if the items are not accepted. The payment for items, either wholly or in part, shall not be deemed or construed as acceptance.

20.0 COMPLIANCE WITH LAWS

- A. Subcontractor shall comply with all applicable federal, state, and local laws and ordinances and all pertinent lawful orders, rules, and regulations unless relief has been granted in writing by the appropriate regulatory agency. Except as otherwise directed by Company, Subcontractor shall procure, without additional expense to Company, all necessary permits and/or licenses.
- B. The requirements of this Article, including paragraph (b), shall be flowed down to all Lower-Tier Subcontractors

21.0 BANKRUPTCY

If Subcontractor enters into any proceeding relating to bankruptcy, it shall give written notice via certified mail to Procurement Representative within five (5) days of initiating the proceedings. The notification shall include the date on which the proceeding was filed, the identity and location of the court and a listing of Company's Subcontract Numbers for which final payment has not been made.

22.0 TAXES

To the extent possible, Subcontractor will use its best efforts to obtain Services, materials and Supplies furnished under Subcontract are tax exempt by sharing the exemption certificate. Subcontractor shall determine at the time of providing bids for Subcontract and all subsequent modifications to Subcontract if it is able to procure Services, materials and Supplies are tax exempt. If the exemption certificate is not accepted, then Subcontract price shall include all applicable Federal, State, and local taxes and duties.

23.0 WARRANTY

- A. Subcontractor warrants it will perform the Work in a professional and workmanlike manner and all Work shall be free of material errors and defects. If Company identifies a non-conformity, Company shall notify Subcontractor of the same and Subcontractor shall promptly correct such error or defect at no additional cost to Company.
- B. Further, Subcontractor warrants the Work provided hereunder shall not infringe any other party's intellectual property rights or interests.
- C. Subcontractor warrants any and all Work performed shall comply with all requirements of the Occupational Safety and Health Act of 1970, as the same may be amended from time to time and including all regulations adopted pursuant to such Act, and shall comply with all requirements of any applicable health or safety statute or regulation of any state or local Government agency having jurisdiction in the location to which items are to be shipped or Work is to be performed pursuant to Subcontract.
- D. Subcontractor warrants every chemical substance delivered under Subcontract shall, at the time of sale, transfer, or delivery, be on the list of chemical substances compiled and published by the Administrator of the Environmental Protection Agency pursuant to Section 8(b) of the Toxic Substances Control Act (Public Law 94-469).
- E. Subcontractor warrants any and all Work performed shall comply with all requirements of the Occupational Safety and Health Act of 1970, as the same may be amended from time to time and including all regulations adopted pursuant to such Act, and shall comply with all requirements of any applicable health or safety statute or regulation

of any state or local Government agency having jurisdiction in the location to which items are to be shipped or Work is to be performed pursuant to Subcontract.

- F. Subcontractor warrants all Services provided to Company are genuine and meet the requirements of 18 U.S.C. 2320 Trafficking in counterfeit Services, as more fully described the Statement of Work. Subcontractor's warranty also extends to labels and or trademark logos affixed or designed to be affixed to items supplied or delivered to Company. In addition, falsification of information or documentation may constitute criminal conduct; Company may reject or retain such information at no cost, and identify, segregate, and report such information to Government officials.

24.0 INSPECTION/ACCEPTANCE

- A. Unless otherwise specified in Subcontract, Subcontractor shall be responsible for all quality assurance measures necessary to ensure only items and Services conforming to the requirements of Subcontract are tendered to Company for acceptance. This shall include such testing, in process inspections and other verification measures as are customary in the industry to ensure the parts, components, and materials furnished by suppliers of Subcontractor and incorporated into end items furnished to Company are not counterfeit or of suspect quality.
- B. Notwithstanding Subcontractor's responsibility for all quality assurance measures as described in paragraph (a) above, Company has the right to conduct process inspections if Subcontract is for Services. If conducted, such inspections shall be performed in a manner which will not unduly delay the Work, and Subcontractor shall provide all reasonable facilities and assistance for the safe and convenient performance of such inspections without additional charges.
- C. Company reserves the right to inspect and test all items and Services which have been tendered for acceptance. Company has the right to reject nonconforming items and Services with or without disposition instructions from Subcontractor; the right to require their correction, replacement, reperformance; the right to accept nonconforming items or Services and reduce Subcontract amount to reflect the reduced value of the nonconformance(s); or the right to terminate Subcontract. Company exercises its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the conditions of the item or Services, unless the change is due to the defect in the item or Service.
- D. Company shall not be obligated to inspect the items or Services, and neither the inspection nor the lack of inspection by Company shall relieve Subcontractor of its responsibility for providing the items or Services in accordance with the terms of Subcontract. The inspection or use of or payment for item under Subcontract, either wholly or in part, shall not be construed as acceptance.

25.0 WORK ON SRS, GOVERNMENT OR OTHER PREMISES/INSURANCE REQUIREMENTS

- A. As to Work to be done or performed by Subcontractor on premises owned or controlled by SRS, the Government, or the premises of other SRS Subcontractors, Subcontractor assumes the entire responsibility and liability for losses, expenses, damages, demands, and claims in connection with or arising out of any injury including death, or damage to property, sustained in connection with or to have arisen out of the negligent acts or omissions of Subcontractor or its Subcontractor's, agents, or employees.
